

KIETH WILBUR J. CHUA

COMPUTER ENGINEER

Unit 3, OPRRA, Cebu City, 6000 Cebu | kiethwilbur59@gmail.com | kashiwagiren.github.io

SUMMARY

Recent Computer Engineering graduate from the University of Cebu with hands-on experience in software development, data structures, and hardware troubleshooting. Proficient in Python, C, and web technologies with project experience in computer vision and laboratory management systems. Completed an internship in IT support and hardware QC. Passionate about building efficient, real-world solutions.

EDUCATION

Bachelor of Science in Computer Engineering	Graduated
University of Cebu - Main Campus Cebu City, Philippines	
Relevant Coursework: Arrays, Linked Lists, Computer Aided Drafting, Object-Oriented Programming, Data Structures & Algorithms, Stacks, Queues, Software Design, ETL/ELT.	
Senior High School - TechVoc Strand (TVL - ICT)	Graduated
University of Cebu - PRI Cebu City, Philippines	

TECHNICAL SKILLS

Programming Language: C, Python, HTML5, CSS3, JavaScript
Databases: MySQL, Firebase, Supabase, SQLite
Tools & Platforms: Git, GitHub, VS Code, Arduino, Codex, Claude, Cursor, Antigravity
Framework & Libraries: Node.js, React, Flask, NumPy, Pandas, TensorFlow, PyTorch, Matplotlib
Concepts: Arrays, Linked Lists, Object-Oriented Programming, Data Structures & Algorithms, Stacks, Queues, Software Design, ETL/ELT

PROJECTS

A Real Time, Vision-Based Automated Scoring System for Steel Tip Darts	2025 - 2026
University of Cebu - Main Campus Undergraduate Thesis Project	
- Built an automated real time scoring dart system that tracks and records the dart and then outputs the score via monitor. - Used OpenCV to track where the dart landed along with Calibration of the dartboard - Developed the frontend interface using HTML, CSS, and JavaScript	
DeskLab	2025
University of Cebu - Main Campus Computer Laboratory Management System	
Developed a Flask/Electron Application that manages the desktop in the lab for student use.	

Data Structures and Algorithms Application

2023

University of Cebu - Main Campus

Course Project

- Implemented core data structures, including linked lists, stacks, queues, and trees, using the C programming language.

Programming Quiz Game

2022

University of Cebu - Main Campus

Course Project

- Developed an interactive programming quiz using C and Java, applying object-oriented programming concepts.

WORK EXPERIENCE

Internship, JoYo Marketing - RMA

May 2025 - Jun 2025

Assisted in Computer Troubleshooting, OS Installation, Hardware repairs

Performed QC on Monitors, and other products

ADDITIONAL INFORMATION

Languages: Cebuano, Filipino, English.
